FINANCIAL PLANNING MINOR

(BUSINESS MAJORS)

O8 - 10 catalog+

18 hours required in Finance, Insurance, Accounting and Marketing classes.

Financial planning is routinely ranked by Money Magazine and others as a “top job” or “best job”. The Bureau of Labor Statistics estimates a 40% increased demand for financial planners in the coming years. The increased demand is due to the nation’s changing demographics and the “aging” of America plus a growing need for women and ethnic diversity in the field. Increased areas of need are in retirement planning, wealth protection and wealth transfer, college savings options, investment options, etc.

FIL 242 - Investments (FIL 240 C or better)	3 hrs
FIL 250 - Intro to Risk and Insurance (60 hrs)	3 hrs
