Description of Opportunity

OVERVIEW

The Risk Analyst is the backbone of SP+'s Risk Management Department. This inquisitive, analytical, and data driven person provides critical support to all facets of the department, including Risk/Insurance, Claims and Safety. Through dynamic reporting and analysis the Risk Analyst will help guide decisions as we work collectively to reduce our Total Cost of Risk. They participate in renewal meetings with brokers and carriers and engages with the CEO, CFO and Operational Leaders in Risk Committee. This position allows the ideal candidate to build strong technical skills and a great industry wide network, setting the stage for a long and successful carrier in Risk Management and Insurance.

RESPONSIBILITIES

- Create, analyze and present sophisticated financial loss reports to the Risk Management Department, Senior Management and Third Parties.
- Critically review and analyze insurance policies, endorsements and contracts.
- Develop strong, effective working relationships with company's management and internal customers throughout the organization to communicate the company's risk objectives and vision and to coordinate related processes.
- Establish, maintain and monitor comprehensive data quality controls for Risk databases fed by various sources, to ensure data integrity.
- Assemble and analyze for accuracy exposure and underwriting data.
- Manage the corporate surety bond program.
- Coordinate the issuance and review of certificates of insurance.
- Manage and audit insurance allocations for each location by line of insurance coverage including but not limited to property, auto, crime, workers' compensation and general liability, monthly.
- Generate and implement models to promptly determine loss root causes and key loss indicators and assist in the development of programs to reduce costs.
- Continually seek opportunities to improve the knowledge and skill of the business units and location managers/supervisors in order to improve systems and reduce the company's total cost of risk.

Preferred Skills

QUALIFICATIONS

- Bachelor's Degree, preferably in Risk Management or Insurance
 - Strong analytical, logical and problem-solving skills
 - Proficiency with Microsoft Office Suite products (Excel, Word and PowerPoint) and Google Workspace
 - High organizational skills and strong attention to detail with strong oral and written communication skills
